

## Riverpoint New Deck

**Year Completed:** 2015

**Location:** Astoria, OR

**Architect:** Michelle Dieffenbach

**Project Size:** 360 Sq. Ft.

*The home had an attached deck that looked like it was not quite complete. The owner's desire was to cover it and improve the look and use. The design and craftsmanship for the roof, railing and structure needed to compliment the existing residence. Large timber members were incorporated into the existing deck and supports to finish off the area.*

Deck prior to remodel & roof addition.
