

Project History

Banker's Suite

Project: *Banker's Suite*

Client: *Blue Mars LLC.*

Location: *Astoria, OR*

Architect: *Michelle Dieffenbach*

Project Size: *5,000 Sq Ft*

Owner Reference:

*Walter & Trish Bright
425-417-6512*

This project consisted in a complete restoration and remodel of the second floor into a large suite. Some of the existing structure and much of the interior finishes were repair or replaced due to water damage. The windows were in such bad condition they had to be removed and replaced with wood windows matching the

dimensions and profile of the original windows. Rickenbach Construction sub-contracted with Bear Windows to supply and install the historical windows. This work was completed while the main floor was occupied as a commercial spa. This project received the Dr. Edward Harvey Historical Preservation Award in 2007 from the City of Astoria.
